LIGHTNING STRIKES AND THUNDERSTORMS

This procedure is in place to protect drivers, officials, volunteers, and spectators from lightning and thunderstorm risks. It is to be followed in accordance with **Appendix 8 – Lightning Strikes and Thunderstorm Rules** of the Karting Australia National Competition Rules.

1. Appointment and Responsibilities
The Clerk of the Course (CoC) must appoint a Lightning Safety Officer (LSO) whenever thunderstorm or lightning risk is identified. The LSO monitors Bureau of Meteorology radar or lightning detection apps, and on-site conditions, advising the CoC of imminent risk. All Officials, volunteers, and personnel must follow directions regarding suspension of activity, movement to Safe Shelters, and securing the venue.

2. Lightning Hold
A Lightning Hold must be implemented immediately if lightning is detected within 10 km, the flash-to-bang time is 30 seconds or less, or the CoC/LSO determines lightning is at immediate proximity. During a hold:

- The red flag is displayed, and all track activity ceases.
- Grids, refuelling, scrutineering, and paddock operations are suspended.
- All persons must move to designated Safe Shelters (as directed by the CoC or LSO)
- Unprotected structures, trees, tents, and open grandstands are not safe

3. Resumption ("All-Clear")
Activity may resume only when at least 30 minutes have passed since the last lightning strike within 10 km and last thunder, and the LSO confirms improving conditions. For Meetings, the CoC must confirm the track is safe and Stewards approve resumption.

4. Compliance and Safety
This procedure aligns with AS 1768:2021 and Karting Australia guidelines. Safety takes precedence over scheduling, broadcasting, or event timing, and the CoC's decision to suspend or resume activity is final. All Officials must maintain a Lightning Log and have it listed in the Stewards Report recording alerts, holds, all-clear calls, and communications.
